[CC] 00:05:14 ... Oregon's roads are among the deadliest in the nation as a result of impaired driving. The state has made a national coalition's list of "**Fatal 15**" states. Newswatch 12's rebekah kleinman explains how that list is compiled. The "**Fatal 15**", it's a list no state wants to be on. It means that more than 41-Percent of a state's traffic fatalities, are alcohol-related. Oregon sits at about 44-percent for 2004. Oregon state police say it's an increasing problem, one they don't have enough manpower to control. 00:08:14

76. Newswatch At 11 PM **DMA: 141**

[CC] 00:07:02 ... Alcohol related deaths are on the rise slightly, putting the state into a national coalition's list of **Fatal 15** states. This is Oregon's first year on the list. That means that more than 41-percent of a state's traffic fatalities are alcohol-related. Oregon sits at about 44-precent for 2004. Oregon state police say it is an increasing problem, one they do not have enough manpower to control. In 2004 we had arrested 4,006 drunk drivers in that area, we arrested 6,910 drunk drivers, that doesn't necessarily equate to there are fewer drunk drivers on the road, but at the same time, we've gone from a strength of 540 to 309. For the complete list of states named the **Fatal 15**, you can log onto our website, kdrv-Dot-com. 00:10:02
